MOTIONS****AVIS DE MOTIONS DES
DÉPUTÉS**

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
4. Debated May 6, 1993.

5. Mr Grandmaître - Resolution - That in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated; Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity. April 26, 1993.
5. M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites; Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible. 26 avril 1993.

6. Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives. April 27, 1993.

7. Debated May 6, 1993.

8. Mr Farnan - Resolution - That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and

3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and

4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

SPECIAL DEBATES**DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

2. Mrs McLeod - Recognizing that, since taking office, the NDP government has consistently mismanaged the financial affairs of the province and has been unable to devise a plan to pull the economy out of the recession;

And whereas there are 550,000 people without work in the province of Ontario;

And whereas 214,000 have joined the unemployment line since the NDP government came to power;

And whereas for over two years, the NDP government ignored the Liberal caucus' calls for fiscal restraint, failed to recognize the serious nature of Ontario's fiscal crisis until far too late, and has now engaged in a poorly thought-out last minute exercise to cut spending that will transfer the burden of restraint to school boards, hospitals, municipalities, colleges and universities and social service agencies and will affect most Ontarians in their daily lives, without adequately addressing the Ontario government's own operations;

And whereas, when in power, the Conservative Party ran deficits for 15 straight years prior to 1985, and left Ontario with accumulated debt of \$30 billion;

And whereas, when in power, the Conservative Party averaged 12% spending increases annually between 1980 and 1985;

And whereas, during its last five years in power, the Conservative Party averaged deficits of \$2.1 billion annually;

And whereas, when in power, the Liberal government was the only government to balance its budget in Ontario in the last 20 years;

And whereas the federal Conservative government has failed to manage the national economy, left Canadians over \$450 billion in debt and has produced a do-nothing budget that fails to reassure international investors;

And whereas the people of Ontario are becoming increasingly concerned about their future and the future of their children, due to the fact that they have no confidence in the ability of the NDP government to restore economic security and health to the province of Ontario;

Therefore the Liberal caucus calls upon the government to take a common-sense approach to managing the economy and to implement the following recommendations:

1. Create an economic climate in which job creation and economic renewal are their number one priority;
 2. Get its own fiscal house in order through genuine reorganization and restructuring and elimination of waste in order to get the deficit under control.
 3. Refuse to increase taxes in order to protect fragile economic recovery and encourage an economic climate that will lead to job creation.
 4. Review expensive programs such as the \$1.1 billion JobsOntario Training program, the \$30 million bureaucracy created by the Advocacy legislation and the Interim Waste Authority that has cost taxpayers \$30 million so far.
 5. Ease the regulatory burden on business by reviewing the NDP's anti-job legislation, such as Bill 40, and eliminating the costly bureaucratic bottlenecks in areas such as land use planning and the WCB.
 6. Focus on training and retraining to help people get back to work and to make our work force more attractive to international investors.
 7. Introduce measures to alleviate youth unemployment to give our 140,000 unemployed young people hope for the future. Premier of Ontario. To be debated May 13, 1993.

Ballot Item Numbers 5 and 6 - Debated May 6, 1993.

Ballot Item Number 7 - To be debated Thursday, May 13, 1993.

Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives.

Ballot Item Number 8 - To be debated Thursday, May 13, 1993.

Mr Grandmaître - Resolution - That in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated; Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity.

M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites; Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible.

Ballot Item Number 9 - To be debated May 20, 1993.

Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

Ballot Item Number 10 - To be debated May 20, 1993.

Mr Farnan - Resolution - That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and

5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
 2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
 3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
 4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries.

PRIVATE MEMBERS' NOTICES OF MOTIONS

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
5. Mr Grandmaître - Resolution - That in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated;

AVIS

AVIS DE MOTIONS DES DÉPUTÉS

5. M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites;

Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity. April 26, 1993.

Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible. 26 avril 1993.

6. Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives. April 27, 1993.

8. Mr Farnan - Resolution - That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-

3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

SPECIAL DEBATES**DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

2. Mrs McLeod - Recognizing that, since taking office, the NDP government has consistently mismanaged the financial affairs of the province and has been unable to devise a plan to pull the economy out of the recession;

And whereas there are 550,000 people without work in the province of Ontario;

And whereas 214,000 have joined the unemployment line since the NDP government came to power;

And whereas for over two years, the NDP government ignored the Liberal caucus' calls for fiscal restraint, failed to recognize the serious nature of Ontario's fiscal crisis until far too late, and has now engaged in a poorly thought-out last minute exercise to cut spending that will transfer the burden of restraint to school boards, hospitals, municipalities, colleges and universities and social service agencies and will affect most Ontarians in their daily lives, without adequately addressing the Ontario government's own operations;

And whereas, when in power, the Conservative Party ran deficits for 15 straight years prior to 1985, and left Ontario with accumulated debt of \$30 billion;

And whereas, when in power, the Conservative Party averaged 12% spending increases annually between 1980 and 1985;

And whereas, during its last five years in power, the Conservative Party averaged deficits of \$2.1 billion annually;

And whereas, when in power, the Liberal government was the only government to balance its budget in Ontario in the last 20 years;

And whereas the federal Conservative government has failed to manage the national economy, left Canadians over \$450 billion in debt and has produced a do-nothing budget that fails to reassure international investors;

And whereas the people of Ontario are becoming increasingly concerned about their future and the future of their children, due to the fact that they have no confidence in the ability of the NDP government to restore economic security and health to the province of Ontario;

Therefore the Liberal caucus calls upon the government to take a common-sense approach to managing the economy and to implement the following recommendations:

1. Create an economic climate in which job creation and economic renewal are their number one priority;
 2. Get its own fiscal house in order through genuine reorganization and restructuring and elimination of waste in order to get the deficit under control.
 3. Refuse to increase taxes in order to protect fragile economic recovery and encourage an economic climate that will lead to job creation.
 4. Review expensive programs such as the \$1.1 billion JobsOntario Training program, the \$30 million bureaucracy created by the Advocacy legislation and the Interim Waste Authority that has cost taxpayers \$30 million so far.
 5. Ease the regulatory burden on business by reviewing the NDP's anti-job legislation, such as Bill 40, and eliminating the costly bureaucratic bottlenecks in areas such as land use planning and the WCB.
 6. Focus on training and retraining to help people get back to work and to make our work force more attractive to international investors.
 7. Introduce measures to alleviate youth unemployment to give our 140,000 unemployed young people hope for the future. Premier of Ontario. To be debated May 13, 1993.

3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and

5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
 2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
 3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
 4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries.

NOTICES**PRIVATE MEMBERS' NOTICES OF MOTIONS**

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
5. Mr Grandmaître - Resolution - That in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated;

AVIS**AVIS DE MOTIONS DES DÉPUTÉS**

5. M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites;

Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity. April 26, 1993.

Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible. 26 avril 1993.

6. Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives. April 27, 1993.

8. Mr Farnan - Resolution - That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-

3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

SPECIAL DEBATES**DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

2. Mrs McLeod - Recognizing that, since taking office, the NDP government has consistently mismanaged the financial affairs of the province and has been unable to devise a plan to pull the economy out of the recession;

And whereas there are 550,000 people without work in the province of Ontario;

And whereas 214,000 have joined the unemployment line since the NDP government came to power;

And whereas for over two years, the NDP government ignored the Liberal caucus' calls for fiscal restraint, failed to recognize the serious nature of Ontario's fiscal crisis until far too late, and has now engaged in a poorly thought-out last minute exercise to cut spending that will transfer the burden of restraint to school boards, hospitals, municipalities, colleges and universities and social service agencies and will affect most Ontarians in their daily lives, without adequately addressing the Ontario government's own operations;

And whereas, when in power, the Conservative Party ran deficits for 15 straight years prior to 1985, and left Ontario with accumulated debt of \$30 billion;

And whereas, when in power, the Conservative Party averaged 12% spending increases annually between 1980 and 1985;

And whereas, during its last five years in power, the Conservative Party averaged deficits of \$2.1 billion annually;

And whereas, when in power, the Liberal government was the only government to balance its budget in Ontario in the last 20 years;

And whereas the federal Conservative government has failed to manage the national economy, left Canadians over \$450 billion in debt and has produced a do-nothing budget that fails to reassure international investors;

And whereas the people of Ontario are becoming increasingly concerned about their future and the future of their children, due to the fact that they have no confidence in the ability of the NDP government to restore economic security and health to the province of Ontario;

Therefore the Liberal caucus calls upon the government to take a common-sense approach to managing the economy and to implement the following recommendations:

1. Create an economic climate in which job creation and economic renewal are their number one priority;
 2. Get its own fiscal house in order through genuine reorganization and restructuring and elimination of waste in order to get the deficit under control.
 3. Refuse to increase taxes in order to protect fragile economic recovery and encourage an economic climate that will lead to job creation.
 4. Review expensive programs such as the \$1.1 billion JobsOntario Training program, the \$30 million bureaucracy created by the Advocacy legislation and the Interim Waste Authority that has cost taxpayers \$30 million so far.
 5. Ease the regulatory burden on business by reviewing the NDP's anti-job legislation, such as Bill 40, and eliminating the costly bureaucratic bottlenecks in areas such as land use planning and the WCB.
 6. Focus on training and retraining to help people get back to work and to make our work force more attractive to international investors.
 7. Introduce measures to alleviate youth unemployment to give our 140,000 unemployed young people hope for the future. Premier of Ontario. To be debated May 13, 1993.

NOTICES

PRIVATE MEMBERS' NOTICES OF MOTIONS

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
5. Mr Grandmaître - Resolution - That in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated;

AVIS

AVIS DE MOTIONS DES DÉPUTÉS

5. M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites;

Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity. April 26, 1993.

Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible. 26 avril 1993.

6. Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives. April 27, 1993.

8. Mr Farnan - Resolution - That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-

3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

SPECIAL DEBATES**DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

2. Mrs McLeod - Recognizing that, since taking office, the NDP government has consistently mismanaged the financial affairs of the province and has been unable to devise a plan to pull the economy out of the recession;

And whereas there are 550,000 people without work in the province of Ontario;

And whereas 214,000 have joined the unemployment line since the NDP government came to power;

And whereas for over two years, the NDP government ignored the Liberal caucus' calls for fiscal restraint, failed to recognize the serious nature of Ontario's fiscal crisis until far too late, and has now engaged in a poorly thought-out last minute exercise to cut spending that will transfer the burden of restraint to school boards, hospitals, municipalities, colleges and universities and social service agencies and will affect most Ontarians in their daily lives, without adequately addressing the Ontario government's own operations;

And whereas, when in power, the Conservative Party ran deficits for 15 straight years prior to 1985, and left Ontario with accumulated debt of \$30 billion;

And whereas, when in power, the Conservative Party averaged 12% spending increases annually between 1980 and 1985;

And whereas, during its last five years in power, the Conservative Party averaged deficits of \$2.1 billion annually;

And whereas, when in power, the Liberal government was the only government to balance its budget in Ontario in the last 20 years;

And whereas the federal Conservative government has failed to manage the national economy, left Canadians over \$450 billion in debt and has produced a do-nothing budget that fails to reassure international investors;

And whereas the people of Ontario are becoming increasingly concerned about their future and the future of their children, due to the fact that they have no confidence in the ability of the NDP government to restore economic security and health to the province of Ontario;

Therefore the Liberal caucus calls upon the government to take a common-sense approach to managing the economy and to implement the following recommendations:

1. Create an economic climate in which job creation and economic renewal are their number one priority;
 2. Get its own fiscal house in order through genuine reorganization and restructuring and elimination of waste in order to get the deficit under control.
 3. Refuse to increase taxes in order to protect fragile economic recovery and encourage an economic climate that will lead to job creation.
 4. Review expensive programs such as the \$1.1 billion JobsOntario Training program, the \$30 million bureaucracy created by the Advocacy legislation and the Interim Waste Authority that has cost taxpayers \$30 million so far.
 5. Ease the regulatory burden on business by reviewing the NDP's anti-job legislation, such as Bill 40, and eliminating the costly bureaucratic bottlenecks in areas such as land use planning and the WCB.
 6. Focus on training and retraining to help people get back to work and to make our work force more attractive to international investors.
 7. Introduce measures to alleviate youth unemployment to give our 140,000 unemployed young people hope for the future. Premier of Ontario. To be debated today.

Ballot Item Number 7 - To be debated today.

Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives.

Ballot Item Number 8 - To be debated today.

Mr Grandmaître - Resolution - That in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated; Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity.

M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites; Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible.

Ballot Item Number 9 - To be debated May 20, 1993.

Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

Ballot Item Number 10 - To be debated May 20, 1993.

Mr Farnan - Resolution - That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and

5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
5. Debated May 13, 1993 / Débattu 13 mai 1993.
6. Debated May 13, 1993.
8. Mr Farnan - Resolution - That, in the opinion of this House,
 1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
 2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
 3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
 4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
 5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
 6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and

7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
8. Mr Farnan - Resolution - That, in the opinion of this House,
 1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
 2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
 3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
 4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
 5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
 6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
 7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and

8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
8. Mr Farnan - Resolution - That, in the opinion of this House,
 1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
 2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
 3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
 4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
 5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
 6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and

7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
8. Mr Farnan - Resolution - That, in the opinion of this House,
 1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
 2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
 3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
 4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
 5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
 6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
 7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and

8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries. May 3, 1993.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations. May 4, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

13. Mr Callahan - Resolution - That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected. May 19, 1993.

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.

8. Debated May 20, 1993.

9. Debated May 20, 1993.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

13. Mr Callahan - Resolution - That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected. May 19, 1993.

DÉPUTÉS**

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.
11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

13. Mr Callahan - Resolution - That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected. May 19, 1993.

14. Mr Murdoch (Grey) - Resolution - That, in the opinion of this House, since the Conservation Land Tax Rebate has been cancelled making it impossible for some Conservation Authorities to pay their taxes, and

since the government is asking Conservation Authorities to accept funding cuts which are far more severe than those foisted on other sectors of society, and

since the Association of Conservation Authorities of Ontario have offered a Blueprint for success which would save Ontario's taxpayers an estimated 100 million dollars, and

since the future of our wetlands, flood plains, and conservation areas are threatened by this government's fiscal mismanagement,

therefore the Conservation Land Tax Rebate should be immediately reinstated to Conservation Authorities and the Government should seriously consider and implement the concepts outlined in the Blueprint for Success. May 31, 1993.

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.
11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

13. Mr Callahan - Resolution - That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected. May 19, 1993.

14. Mr Murdoch (Grey) - Resolution - That, in the opinion of this House, since the Conservation Land Tax Rebate has been cancelled making it impossible for some Conservation Authorities to pay their taxes, and

since the government is asking Conservation Authorities to accept funding cuts which are far more severe than those foisted on other sectors of society, and

since the Association of Conservation Authorities of Ontario have offered a Blueprint for success which would save Ontario's taxpayers an estimated 100 million dollars, and

since the future of our wetlands, flood plains, and conservation areas are threatened by this government's fiscal mismanagement,

therefore the Conservation Land Tax Rebate should be immediately reinstated to Conservation Authorities and the Government should seriously consider and implement the concepts outlined in the Blueprint for Success. May 31, 1993.

15. Mrs MacKinnon - Resolution - That, in the opinion of this House, since promoting trade, investment and job growth is the leading priority of the Government of Ontario and that the North American Free Trade Agreement is, on balance, not in the best interests of the province because this Agreement:-

1. will cause net job loss in Ontario;
2. will apply downward pressure on environmental standards;
3. will apply downward pressure on labour standards;
4. makes no mention of labour adjustment for workers and since the Federal labour adjustment assistance remains inadequate because of the job losses caused by the FTA;
5. encroaches into more areas of provincial jurisdiction, and will limit Ontario's ability to implement its economic and social policies and because the deal intrudes on more areas of provincial jurisdiction than previous trade agreements, such as regulation of investment, financial services and standards;
6. will not end American trade harassment;
7. will treat Canadian and Mexican energy reserves differently, and
8. will make the devastation of the FTA worse;

Therefore, this House urges the Government of Ontario to oppose the implementation of the North American Free Trade Agreement by all possible means. June 1, 1993.

1. Debated May 19, 20, 31, 1993.
2. Mr Charlton - Resolution - That, notwithstanding Standing Order 9, the House shall continue to meet from 6:00 p.m. to 12:00 midnight on June 14, 15, 16, 17, 21, 22, 23 and 24, 1993, at which time the Speaker shall adjourn the House without motion until the next Sessional day. June 2, 1993.

DÉPUTÉS**

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue. April 13, 1993.
2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province. April 19, 1993.
10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province. May 5, 1993.
11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province. May 10, 1993.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario. May 17, 1993.

13. Mr Callahan - Resolution - That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected. May 19, 1993.

14. Mr Murdoch (Grey) - Resolution - That, in the opinion of this House, since the Conservation Land Tax Rebate has been cancelled making it impossible for some Conservation Authorities to pay their taxes, and

since the government is asking Conservation Authorities to accept funding cuts which are far more severe than those foisted on other sectors of society, and

since the Association of Conservation Authorities of Ontario have offered a Blueprint for success which would save Ontario's taxpayers an estimated 100 million dollars, and

since the future of our wetlands, flood plains, and conservation areas are threatened by this government's fiscal mismanagement,

therefore the Conservation Land Tax Rebate should be immediately reinstated to Conservation Authorities and the Government should seriously consider and implement the concepts outlined in the Blueprint for Success. May 31, 1993.

15. Mrs MacKinnon - Resolution - That, in the opinion of this House, since promoting trade, investment and job growth is the leading priority of the Government of Ontario and that the North American Free Trade Agreement is, on balance, not in the best interests of the province because this Agreement:-

1. will cause net job loss in Ontario;
2. will apply downward pressure on environmental standards;
3. will apply downward pressure on labour standards;
4. makes no mention of labour adjustment for workers and since the Federal labour adjustment assistance remains inadequate because of the job losses caused by the FTA;
5. encroaches into more areas of provincial jurisdiction, and will limit Ontario's ability to implement its economic and social policies and because the deal intrudes on more areas of provincial jurisdiction than previous trade agreements, such as regulation of investment, financial services and standards;
6. will not end American trade harassment;
7. will treat Canadian and Mexican energy reserves differently, and
8. will make the devastation of the FTA worse;

Therefore, this House urges the Government of Ontario to oppose the implementation of the North American Free Trade Agreement by all possible means. June 1, 1993.
